Metal Fabricators build, assemble and repair products made of steel or other metals for use in a wide variety of manufacturing and construction industries. They must be familiar with the properties of metal and know how to operate specialized metalworking machines. Pipefitters usually begin as helpers or apprentices. Journeyman pipefitters deal with industrial/commercial/marine piping and heating/cooling systems. Metal Fabricators and Pipefitters are essential in various sectors such as manufacturing, construction, and marine engineering.
receive no government or outside funding, but assist our trade and public on a daily basis - saving the NHS thousands of pounds annually.
